Monday, 10 September 2018, start of operation until

Sunday, 21 October 2018, no service

**Dear Passenger**

The refurbishment of underground conduits and the road surface in Rosentalstrasse will continue until June 2019.

At the same time, BVB will be replacing the tram lines in Rosentalstrasse and at Badischer Bahnhof and will be making the stops at Badischer Bahnhof and the Basel School of Business accessible for disabled persons. In future, passengers will enjoy entry and exit without steps to and from the trams. At the same time, both the tram lines and the overhead lines are being replaced in Riehenstrasse, between Badischer Bahnhof and Eglisee.

During the most intensive phase of construction, between 10 September and 21 October, trams will be replaced by buses in both directions on the section between Messeplatz and Eglisee.

Only tram line 6 will be operating between Eglisee and the Riehen border.
